

Environmental & Sustainability Policy Statement

Preformed Windings Ltd is an established and reputable company who have a reputation for providing a professional and trustworthy service both internationally and throughout the United Kingdom, maintaining the highest standards of coil manufacturing skills.

The company believes that all aspects of its operations should be carried out in such a way as to have a positive impact on the environment. The organisation will control its activities in order to minimise any negative effect on the environment.

In order to maintain these values Preformed Windings Limited operates an established environmental management system that meets the BS EN ISO 14001:2004 standard. The standard provides the framework for setting and reviewing objectives and targets.

BSi Certificate No: EMS 573759 refers to our scope for “The manufacture of coils for electrical rotating machinery”.

Preformed Windings Limited is committed to:

- Compliance with applicable environmental legislation, codes of practice and other environmental standards of relevance to the industry in which we quote.
- Continued environmental improvement by implementing robust environmental management systems and ensuring sufficient resources are made available to implement this policy.
- Developing objectives supported by detailed targets, to manage all potentially significant environmental impacts resulting directly from our operations.
- Prevention of pollution, monitoring and reducing any adverse impact of the Group’s operations on the environment and local community, and taking appropriate opportunities to minimise waste and re-use and recycle materials wherever possible.
- Providing all employees with the information, instruction and training required for working effectively in caring for the environment and training needs pertinent to this policy will also be identified and appropriately managed.
- Working in partnership with our suppliers to ensure effective environmental supply chain management and promote environmental best practices wherever possible with our suppliers.
- Communicating to everyone working for or on behalf of the company the requirements of our environmental policy.
